gorgeous weddings

December 2008

The time was drawing nearer to the deadline when the Self Assessments had to be posted to the HM Revenue and Customs. Panic was setting in as I did not know how to complete the assessment nor did I have the time to compile the necessary paperwork or carry out the calculations.

A meeting took place between Donna and myself with regard to my requirements, I was put at ease when Donna said not to worry and took all of my paperwork away.

Within a short space of time I received a call to say that the work had been done, a meeting was arranged for Donna to return my paperwork and guide me through completing the Self Assessment.

At the meeting I was so relieved to have my paperwork organised and filed in an appropriate manner and the calculations presented in an easy to follow format. Completing the assessment with Donna enabled the process to be carried out stress free and quickly.

There would be no hesitation in recommending Donna for her services; the complete experience was professional, timely, and excellent value for money. I would certainly recommend Donna to anyone who has set up their own business and in fact have already done so!

This service saves so much of my valuable time and leaves me to concentrate on growing the business!
