## "Your Personal Organiser"

Donna has been working here for more than a year, taking on general office work, production of Parish weekly bulletins and the parish finances. She has transformed the parish office and my own working practice - she has been exactly what I needed! She is reliable, efficient and has adapted to what is probably not a very normal situation very easily. A church office naturally involves access to confidential information and I have no hesitation in this regard. I would be happy to recommend her without reservation for any of your office needs.

Fr Bernard Woods

Parish Priest
